

Says

What have we heard them say?
What can we imagine them saying?

What are their wants, needs, hopes, and dreams? What other thoughts might influence their behavior?

Thinks

To estimate our business expenses, you'll need to consider various factors such as salaries, rent, utilities, marketing, and other operational costs.

To uncover our team members' desires, dreams, and needs regarding business expenses estimation, consider conducting individual interviews or surveys. Ask questions about their vision for the business, their goals, and what resources they believe are necessary to achieve them.

To understand our team's imagination of business expenses, hold a collaborative meeting where team members can share their expectations for different expense categories. This can help create a collective estimate that incorporates everyone's input and perspectives.

Gathering detailed information from our team about their needs and projections will help create an accurate estimate.
